DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 9, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Taylor.

The Taylor reference discloses a pressure relief valve (Figure 4) comprising a closing element 130, a handwheel 172, a threaded sleeve 160, a valve shaft (shaft connected to closing element 130, and connecting element 150 with teeth (the female threads on connecting element 150).

Allowable Subject Matter

Claims 3-8 and 11-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
